— Ganglinie der täglichen Niederschlagshöhen
- - - Dauerlinie der täglichen Niederschlagshöhen (erreicht oder überschritten)

The chart displays the daily precipitation heights (mm) for each day of the year. The Y-axis represents precipitation in mm, ranging from 0.0 to 40.0. The X-axis represents the days of the year, with labels for the start of each month (1, 31, 59, 90, 120, 151, 181, 212, 243, 273, 304, 334, 365). The bars are stacked vertically for each day, showing the total precipitation for that day. A red dashed line represents the running total of daily precipitation, which rises sharply during periods of high rainfall and plateaus during drier periods.
